Subject: RE: Marquee Set Up

Dear Phil,

Just to tell you - your marquees were utterly brilliant - absolutely perfect for our wedding. The whole thing was great from putting them up to the taking down. Your son was a star, as were all your staff. The first day it was like being in fairy land and then the next day we transformed it into a very pretty setting for a traditional English afternoon tea- party. My daughter, the bride, had a little cry when she arrived back from her bridal night in The Hope Street Hotel because it was so lovely.

What was so clever was that the transparent sides allowed the marquees and garden to merge together where we wanted - yet the opaque sections meant we could section off the disco area and make it more intimate.

So thank you very much. I'm so glad we found you.

Kathy Desmond

(One small thing that perhaps you might tell prospective clients is that the catering tent can be put up totally independently with extra foot plates. This allows for greater flexibility on the siting of the main marquees.)
